

Regulations Prix Galien Awards 2022

With effect from 2022 and following the international example, the Prix Galien Award will be divided into 2 categories 'Pharmaceutical' and 'Biological'. The division of the original Pharmaceutical Award also does justice to the diversity of the therapeutic interventions. The Prix Galien consists of a gold medal.

Article 1

The **Prix Galien 'Pharmaceutical' Award 2022** rewards the most meaningful and/or innovative product for human use that:

- was placed (introduced) on the Dutch market between January 1st 2021 and December 31st 2021;
- received a Dutch or European marketing authorisation (EMA) not older than five (5) years before the introduction or was registered with the CBG;
- already has a reimbursement status or has been admitted to the Compassionate Use Program (CUP).

The **Prix Galien 'Biological' Award 2022** rewards the most meaningful and/or innovative biological for human use that:

- was placed (introduced) on the Dutch market between January 1st 2021 and December 31st 2021;
- received a Dutch or European marketing authorisation (EMA) not older than five (5) years before the introduction or was registered with the CBG;
- already has a reimbursement status or has been admitted to the Compassionate Use Program (CUP).

Article 2
